Hurricane Preparedness

Hurricane Preparation for Your Pool

1. Except in special cases, there is no need to lower the water. Many people say "Won't the pool overflow if you don't lower the water level?" Certainly it could, but no more than if a patio or plots of grass were there. Never completely drain the pool. If you do lower the water level, be sure to close the skimmer valve to prevent damage to the pump and piping.
2. Turn off all electrical power to the swimming pool, including power to the pump motor, lighting, chlorinators, etc.
3. Remove and store any removable child safety fences. Install the fence deck caps.

After the Storm

1. **DO NOT EMPTY THE POOL!** High ground water can cause structural damage to an empty pool. There is a very good chance that your pool will lift right out of the ground if you drain it after heavy rains or floods or when the water table is high.
2. Remove all debris from pool with a rake and a skimmer before restarting the system to prevent clogged lines. Some chemical feeders require special care before starting the pump motor. Check with your pool company.
3. Check to make sure the pool is operating normally and that the water is circulating in the pool. Reset time clocks to show the correct time of day. Run the filter until the water is crystal clear and resume normal pool operation.

Introducing Extended Warranty

Acqua Nita Services is introducing extended warranty to our clients. If you are interested please call for more information.

WE ACCEPT MAJOR CREDIT CARDS ON REPAIRS AND PARTS. MINIMUM PURCHASES OF \$75

FIRST **FIVE CUSTOMERS** TO CALL WILL GET AN ADDITIONAL **\$10.00 OFF** THEIR NEXT PARTS PURCHASE.

Refer a friend and get **50% off** your next service
(limit of two customers per month)

Filter Cartridge - Please remember that your filter cartridges should be changed yearly and your authorization is necessary. Our office staff will send you an authorization request to sign and return to us. This is an important part of making sure your pool equipment continues to run properly.

Did you know...

- Older pools and/or spas can look new again by resurfacing them! If an acid wash is not enough to remove stains from your pool and/or spa we recommend you consider this technique.
- If you'd like to simply change or *update* the look of your pool/spa; a basic retiling can do the trick!
- All of the above services and many more are available to you. Please visit our website www.acquanita.com to check them out! Don't see what you're looking for? Would you like to suggest additional services? Your suggestions can be sent directly to us from here by selecting the 'Contact Us' button located on all of our pages.
- Need an idea for your pool/spa? Visit Jandy® website www.jandy.com and get creative!

Having a party? Let us know a week in advance so that we can schedule to come out that day instead of the normal service day. Weekends are an

Protect your investment and property. Verify that you are hiring a licensed and insured company or individual by checking their information on the Department of Business and Professional Regulation website at www.MyFlorida.com/dbpr or by telephone at 850.487.1395

Until our next Newsletter, have a safe and fun Spring! Respectfully, *Ana T. Labosky*
